TRUST GROUP

The Basel Trust Group is an international, multi-disciplinary, independently owned group of companies, providing trust, company and partnership administration services in a number of leading jurisdictions.

THE BASEL TRUST GROUP

The Group is independently owned by its key executives who are all resident and domiciled in leading international financial centres.

Amongst the professional skills of the executives are extensive experience in accountancy, law, banking, trust and corporate administration and information systems. By combining these professional skills in a unique way and making use of our international locations we are able to offer a bespoke service to fulfil our clients' specific requirements in a cost effective and flexible manner.

The Group's representation includes operating subsidiaries in Jersey, Geneva and London. We also have associated offices in a number of other leading jurisdictions. In addition, the Group has long-standing relationships with firms of professional advisers and financial institutions in many of the leading financial centres in the world. Through these, the Group's clients have access to a unique range of skills and services that enables them to transact business on a global basis.

Built in the 13th century to protect the Island against the French, Mont Orgueil is an imposing sight from the harbour at Gorey and one of the finest preserved medieval castles in Europe.

The Jet d'Eau installed in 1891 on the Rade is Europe's tallest fountain (130metres) and an icon of the City of Geneva.

The ownership of the Group is carefully designed to resist undue pressure being placed on operating subsidiaries by any particular government or multi-national authority. The key subsidiaries are fully licensed and regulated by the relevant financial services authorities and comply with all applicable statutory requirements in the jurisdictions where they are based.

The Group companies, both in their own capacity and as managers of institutionally owned vehicles, manage assets world-wide. These range from family estate planning structures, to corporate securitisations and the ownership of special purpose vehicles, which own such assets as ships and real estate.

Significant investment has been made in highly sophisticated computer systems in order to ensure communication with our international clients is secure, speedy and confidential.

The Tower of London has been an integral part of British royal history for nearly 1,000 years. The tower has been a palace, prison, treasury, arsenal and today houses the priceless Crown Jewels.

The Services provided by the Group include:

The establishment of offshore trusts, companies and partnerships in major tax efficient jurisdictions.

The provision of consultancy services in conjunction with leading advisers for the purpose of international estate planning.

The provision of consultancy services in conjunction with leading banking institutions in relation to the procurement of finance.

Specialist administration of offshore companies to include the provision of registered and administrative offices, the provision of Corporate Secretaries and Directors and the administration of all commercial activities required by international trading and consultancy companies. The Group has a particular interest in all aspects of international e-commerce and close links with related professions and suppliers.

The provision of nominee, safe custody and escrow facilities.

The provision of services in relation to the administration of limited liability partnerships.

The provision of administrative services in relation to collective investment schemes.

The provision of administrative services in relation to captive and bespoke insurance structures.

The provision of Managed Trust Company services for banks and other major financial institutions.

To receive further information about any of the above services, or any other offshore services, please contact:
